

## Doubleweave Workshop!

On April 11, 12, and 13, we will have the chance to take a doubleweave workshop from a very accomplished teacher of doubleweave. Jennifer Moore teaches extensively, has pushed the boundaries of doubleweave, and has written a wonderful and comprehensive book on the subject.

This three-day workshop is called **Double Rainbow**. In this workshop, you will create what is perhaps the ultimate color sampler! You will begin by winding a warp and setting up your loom according to Jennifer's system for working with multiple colors in a rotational sequence and bringing it to the workshop. A basic two-layered structure will enable us to mix and match our colors, creating an amazing array of color mixtures.

As you weave and your warp, colors move past each other and you will experience a visual feast of iridescence and moire patterns. We will also experiment with single-layered structures such as warp rep and warp-faced twills and the effects that they create on this versatile warp. This sampler will provide a remarkable education in color theory and how optical mixtures work in weaving, as well as a great source of inspiration for future weaving projects.

No prior experience in doubleweave is necessary. Participants will bring a 4- or 8-shaft loom warped according to instructions. To see some of Jennifer's intricate and beautiful weavings, go to [doubleweaver.com](http://doubleweaver.com).
